

A photograph of two offshore wind turbines in the ocean. The turbines have white towers and three-bladed rotors. They are mounted on yellow floating platforms. A green service vessel is visible in the background. The sky is overcast and the water is dark blue.

Naval Hydrodynamics for non-naval engineers

Curso

- Wave Theory
- Stability
- Wave-structure interaction
- Application case studies
- Analytical and numerical exercises
- Guided practical assignments
- Integrative project using specialized software

Audience

- Students interested in offshore technologies with a background in science or engineering who are looking for a topic of current research.

Instructor

Jimmy Valencia

MSc. Naval architecture and Ocean engineering U. Lisboa

PG. Data Science U. Lisboa
